WORK EXPERIENCE

Associate Graduate

NTT India Digital Business Solutions Private Limited

08/2022 - 07/2023

Chennai

Achievements/Tasks

- As an **Associate Graduate**, I worked closely with senior developers and testers, contributing to the overall software development and testing processes.
- **Designing Test Cases**: Validated software functionality by creating 500+ detailed test cases in collaboration with stakeholders; identified and resolved critical issues, leading to a 35% improvement in overall product quality.
- **Manual Test Execution**: Identified and reported 50+ defects, contributing to the delivery of high-quality, bug-free software.
- **Putty Software Utilization**: Effectively utilized various commands to diagnose and resolve technical issues, leading to a 30% reduction in system and improved overall system performance.

Trainee

Trinity Technologies

02/2022 - 08/2022

Trivandrum

Achievements/Tasks

- As a Trainee, I completed a 6-month training program focused on **Angular**.
- Gained in-depth knowledge of **HTML5**, **CSS3**, **Bootstrap**, and **JavaScript**, resulting in the successful development of 3+ responsive and visually appealing web applications.
- Demonstrated a strong commitment to continuous learning and staying updated with the latest industry trends and best practices resulting in a 15% reduction in project delivery time.

PERSONAL PROJECTS

Netflix clone

- **Live Demo**: <https://netflix-clone-f2de6.web.app/>.
- **Git Repository**: <https://github.com/AkilAntony/netflix-clone>.
- This project is a Netflix-inspired design that utilizes **React JS** and the **TMDB API** to fetch movie posters and trailers, upon clicking on a movie poster, play the corresponding trailer.
- Implemented performance optimizations, resulting in a 25% reduction in app loading times and ensuring a smooth user experience across different devices and network conditions.

Weather App

- **Git Repository**: <https://github.com/AkilAntony/weatherApp>.
- Developed a user-friendly Weather App using **OpenWeather API** to provide real-time weather details based on user-input locations.
- Responsive design and error handling ensured a seamless user experience resulting in a 25% increase in app navigation efficiency.
- Demonstrated technical expertise in **Angular**, API integration, and front-end development.
