Profile Summary

Highly skilled Software Engineer with over **2+** years of experience in **Frontend web Development**, specializing in **HTML5**, **CSS3**, and **JavaScript**. Proficient in creating visually appealing and engaging user interfaces for web applications, with hands-on experience in translating design concepts into functional components using **ReactJS**.

Technical Skills

Languages: HTML/CSS, JavaScript (ES6+ features), Typescript

Technologies/Frameworks: ReactJS, Tailwind CSS, Bootstrap, GitHub, Axios, React router, Redux Toolkit, Formik

Developer Tools: VS Code, Chrome Developer Tool, Lighthouse, Postman, Jira

Testing: Bug Tracking, Manual Testing, Debugging, Putty

Other Skills: REST APIs, MongoDB, Responsive Web Design, NPM, Node JS, Express JS

Experience

Giraffic Info World

November 2023 – May 2024

ReactJS Developer

Nagercoil, Tamil Nadu

- Developed responsive and user-friendly web applications using React.js, ensuring high performance and scalability.
- Provided technical support and guidance to students during their internships, helping them gain practical experience in frontend development.

NTT Ltd

August 2022 – July 2023

Associate Graduate

Chennai, Tamil Nadu

- Assisted in bug fixing and UAT (User Acceptance Testing) issue resolution to ensure a smooth user experience, resulting in a **20%** decrease in reported user issues.
- Created and executed over **300** test cases using Putty and WinSCP, ensuring comprehensive testing coverage and a **25%** increase in test coverage.
- Collaborated with development teams to address and resolve **80%** of reported bugs within the scheduled timeframe, enhancing system stability by **15%**.
- Utilized **React**, **HTML5**, **CSS3**, **JIRA**, **Putty**, and **Git** for software development, testing, and project management tasks

Trinity Software Technologies

February 2022 – August 2022

Intern

Trivandrum, Kerala

- Enhanced technical skills in Frontend web development using Angular and ReactJS.
- Acquired hands-on experience in HTML5, CSS3, Bootstrap, JavaScript, and TypeScript.
- Developed and maintained responsive user interfaces using Angular and ReactJS, ensuring seamless functionality across various devices and screen sizes.

Projects

Global Billing System | *JavaScript, React, Putty*

July 2023

- Worked on an existing billing web application with admin and user interfaces.
- Created and executed comprehensive test cases using Putty and WinSCP to verify functionality and performance.
- Identified, tracked, and managed over 50 software defects using JIRA, contributing to a 30 percent reduction in critical bugs.

Project Management App | *JavaScript, Node JS, React JS, Express JS, MongoDB, JWT*

January 2024

- Developed a full-stack web application to manage projects and task lists with authentication and CRUD operations.
- Implemented role-based access control to manage user permissions, ensuring secure and appropriate access to different application features based on user roles.
- Integrated JWT (JSON Web Tokens) for secure user authentication, enhancing the security of the application by preventing unauthorized access.

Education

Rohini College of Engineering and Technology, Anna University

September 2017 – November 2021

Bachelor of Engineering in Computer Science

Kanyakumari, Tamil Nadu
